Call for Conference

Subject: The third training conference on new technologies in mining in 2023 Iran, entitled IMT2023 (Iran Mining Technology Summit2023)

Dear Sir/Madam,

Regarding to the support and presence of Iranian Mines & Mining Industries Development & Renovation, IMIDRO, in holding two successful events of the New Technologies Conference in Iran Mining in 2017 and 2018, Tehran with the presence of more than 300 of managers, decision makers and experts and presenters of new ideas, new products in World-class mining and mining industry, we are now proud to announce the holding of the third conference on new technologies in mining in Iran on 2 and 3 May 2023 at the Kish Free Zone Conference Center.

The Mining Technology Conference 2023 provides an opportunity for Iranian managers, consultants, contractors and experts to get acquainted and learn about the latest technology and innovations in the field of mining and mining industries. The conference will emphasize on the introduction of the latest mining technologies at the international level and will present the latest achievements and experiences of industry leaders. Speakers from around the world will attend in this event and introduce their latest technologies and experiences to Iranian companies.

Rastak Pad Vision Co in cooperation with SPIRE-EVENTS and IDPEX JV Company of Datacode India has provided the necessary plans for the presence of world-class companies in the world of mining technology and mining industries, and prominent speakers in a completely different platform. The aim of this event is to introduce and train technologies which are implemented and operated in different countries and regions.

We would like to warmly invite you to participate in this event and join us. Please feel free to contact us in case that you need further information.
